AI & ML Student | Backend Developer | AI Builder

Skills

Programming

Python
C++
SQL
HTML
CSS.

AI/ML

YOLOv8
OpenCV
NumPy
Pandas
Prompt Engineering.

Backend:

FastAPI
REST APIs
MySQL.

Summary

B.Tech Artificial Intelligence & Machine Learning student at Brainware University passionate about building practical AI applications and leading AI communities. Experienced in Smart India Hackathon, Google Student Ambassador Hackathon, Computer Vision projects, FastAPI backend development, and organizing technical meetups. Interested in responsible AI, hackathons, and student innovation.

Education

B.Tech — Artificial Intelligence & Machine Learning
Brainware University • 2025 – 2029

Experience

- Smart India Hackathon 2026 Team Lead.
- Google Student Ambassador Hackathon Participant.
- AI Ignite Innovation Challenge Participant.
- Active DSA learner (GeeksforGeeks & LeetCode).

Projects

- AI-Powered Land Encroachment Detection (SIH 2026)
Python YOLOv8 OpenCV NDVI

Detects illegal land encroachments from satellite imagery using computer vision and vegetation analysis.

- MemoryVault AI | AI HACKATHON

Next.js • FastAPI • Gemini AI • MongoDB • RAG

Developed an AI-powered memory companion for senior citizens with personalized memory recall, medicine reminders, caregiver support, and emergency assistance using Gemini AI and RAG.

Leadership Experience

- GeeksforGeeks Campus Mantri — Brainware University (2026–Present)
- Google Student Ambassador (2026)
